DTM CORE - PROFESSIONAL VERSION

ON-FARM

DTM CORE - Daily TMR Manager Professional version is the feeding management software solution developed to manage large farms daily operations and contractors

BENEFITS

CLOUD BASED SOFTWARE
- Data available where you need it, when you need it.
- No hardware, no administration, low implementation costs.

PREMISE BASED, LOCAL INSTALLATION (available soon)
- A locally installed solution can be provided to ensure maximum reliability in locations where the internet can be unreliable

TRAINING & SUPPORT
- Managed training services from experienced team delivers rapid deployment.
- 24/7 Remote support options available.
- Dedicated support services for all DTM customers.

YOUR OWN TAILORED TOOL
- We can tailor the DTM to match your businesses requirements (i.e. interface with main herd management software to import milk data, online access for your trusted nutritionist to specific reports etc.)

	Cloud	USB - Flash memory card – 3G Modem - WiFi	

ON-LINE LICENSE ACTIVATION:

Start using your DTM software it's easy: register your software online and get the DTM license activation by the following steps:
• Create you profile registering personal data on: www.register.dinamicagenerale.com
• Register the product license typing the serial number of your DTM;
• Wait for license activation file.

LICENSE BENEFIFITS:

The license subscription (1 year validity) entitles DTM license subscribers to benefit from the following services:

• DTM software update via the Internet
• Direct support by phone or remote access to the PC
• App with KPI (Key Performance Indicators) to track feed efficiency and IOFC directly on your smartphone (available for DTM Cloud only)

NOTE:
The DTM License subscription includes all benefits for a period of 12 months from the License activation date. At the end of each 12 months coverage, the License subscription is renewable for another 12 months or more. If License is not renewed, for Cloud versions, the usage of software will be suspended and Licensee will no longer receive the benefits described above. For Local versions, Licensee will no longer receive the benefits described above, but he may still use the software according to the license agreement subscribed.
